

We understand that making the decision to use outside help for the care of a loved one is difficult. That's why we provide an array of services for you to consider. At *Loving Touch Home Care* we've been in the position to experience both the sometimes stressful responsibilities of caring for an elderly loved one and the hardships of needing to be cared for.

Inquiries

A *Loving Touch Home Care* representative will respond to any questions and provide additional information about our services and in-home assessments. If service is requested, it can be arranged for at the time of inquiry or following an in-home assessment.

Assessments

Loving Touch Home Care will review our client's need with involved family and consult with their physician if necessary to develop an individualized program to manage all needs. We will match the needs of our client with the best possible caregiver and bring them to your home. We will continue personalized contact through telephone check-ins and home visits. There will be constant accountability of the caregiver.

How Costs are Determined

We charge a variable rate based on the type of service needed, when it is provided, and where it is delivered. There are no costs for care assessments. Costs are worked out and discussed with our clients prior to commencement of service. Services are available from just a few hours a day to 24 hours a day.

How to Arrange our Service

Our office is open Monday through Friday. Voice mail is in place 24 hours a day and checked regularly in order to give prompt attention to requests for immediate assistance.
